The limit of your coverage is the actual cash value of your auto or its damaged parts at the time of loss. Fair market value, age and condition of your damaged vehicle will be considered when determining the actual cash value of a loss. Certain parts lose value or depreciate because of age, condition, and/or wear and tear. Betterment is the increase in value of a vehicle or any of its parts as a result of replacing certain parts damaged in a loss. If the replacement of certain parts results in an increase in value to your vehicle or any of its parts, a deduction for betterment may be made to your loss payment to reflect the actual cash value you are owed under your policy.

The preparation of this estimate may have been based on the use of crash parts supplied by a source other than the manufacturer of your motor vehicle. There are warranties applicable to these replacement parts. These warranties are provided by the manufacturer and/or distributor of the parts rather than by the original manufacturer of your vehicle. Parts specified on the appraisal by other than the original manufacturer are required to be of equivalent like, kind, and quality in terms of fit, quality and performance to the original manufacturer parts they are replacing.

Estimate based on MOTOR CRASH ESTIMATING GUIDE and potentially other third party sources of data. Unless otherwise noted, (a) all items are derived from the Guide ERI5787, CCC Data Date 07/01/2024, and potentially other third party sources of data; and (b) the parts presented are OEM-parts. OEM parts are manufactured by or for the vehicle's Original Equipment Manufacturer (OEM) according to OEM's specifications for U.S. distribution. OEM parts are available at OE/Vehicle dealerships or the specified supplier. OPT OEM (Optional OEM) or ALT OEM (Alternative OEM) parts are OEM parts that may be provided by or through alternate sources other than the OEM vehicle dealerships with discounted pricing. Asterisk (\*) or Double Asterisk (\*\*) indicates that the parts and/or labor data provided by third party sources of data may have been modified or may have come from an alternate data source. Tilde sign (~) items indicate MOTOR Not-Included Labor operations. The symbol (<>) indicates the refinish operation WILL NOT be performed as a separate procedure from the other panels in the estimate. Non-Original Equipment Manufacturer aftermarket parts are described as Non OEM, A/M or NAGS. Used parts are described as LKQ, RCY, or USED. Reconditioned parts are described as Recond. Recored parts are described as Recore. NAGS Part Numbers and Benchmark Prices are provided by National Auto Glass Specifications. Labor operation times listed on the line with the NAGS information are MOTOR suggested labor operation times. NAGS labor operation times are not included. Pound sign (#) items indicate manual entries.

Some 2024 vehicles contain minor changes from the previous year. For those vehicles, prior to receiving updated data from the vehicle manufacturer, labor and parts data from the previous year may be used. The CCC ONE estimator has a list of applicable vehicles. Parts numbers and prices should be confirmed with the local dealership.
